DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-2, 4 are rejected under 35 U.S.C. 102(b) as being anticipated by Dennison et al ('367).

Dennison teaches the following claimed limitations as cited below:

Claim 1 (currently amended):

A semiconductor processing method of forming integrated circuitry comprising: forming memory circuitry and peripheral circuitry over a substrate, the peripheral circuitry comprising first and second type MOS transistors; and conducting second type halo implants (118/120) into the first type MOS transistors in less than all peripheral MOS transistors of the first type, wherein the conduction of the second type halo implants includes conduction said implants into only one of the source and drain regions in less than all of the peripheral MOS transistors of the first type (128/126), and not the other of said source and drain regions of said less than all of the peripheral MOS transistors of the first type (112) (Fig.5 and Col.7, lines: 60-65).

Art Unit: 2813

Claim 2. The semiconductor processing method of claim 1, wherein the second type is p-type (Col.7, lines: 55-65).

Claim 4 (original): The semiconductor processing method of claim 1, wherein: the second type is p-type (Col.7, lines: 55-65); and the conducting of the second type halo implants (118/120) comprises conducting said implants into only one of the source and drain regions in the less than all of the peripheral MOS transistors of the first type (128/126), and not the other of said source and drain regions of said less than all of the peripheral MOS transistors of the first type (112) (Fig.5).

Response to Arguments

Applicant's arguments with respect to claims 1-2, and 4 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period

Art Unit: 2813

will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
